

Bids Called For Newark Post Office

The initial procedure towards the eventual construction of a new post office in Newark was inaugurated this week, according to Postmaster Julia Harris.

Mrs. Harris announced that bids will be received up to and including April 15 to furnish a building in the town of Newark suitable for post office purposes.

The building must be ready for occupancy by November 1, 1950, for a term of either five or ten years. The building must have a floor space of about 2,500 square feet and the bids may or may not include furnishing heat, light and water.

The bids must be submitted on the standard forms obtainable either from Mrs. Harris, Newark, or Post Office Inspector W. H. Hudson, Box 3665, Room 317, Rincon Annex, San Francisco 19, California.

The construction of a new post office in Newark will mark the first time in the history of the town that the post office has been housed in a building constructed for that purpose.

The post office was formerly located in a large two-story building on Filbert Street and was moved into its present location, the former Bank of America Building, about 1930, while Mrs. Mattie Bole was postmaster, according to Mrs. Mary Lotti, who has served as clerk for more than 20 years.

According to Mrs. Harris, the present building, with floor space of approximately 1,400 square feet, does not afford nearly enough space for the volume of mail handled. She stated that there is also a great need for many more lock boxes.

MAYS DELEGATE TO STATE CONVENTION

George Mays of the California Potter Company at Niles, this week was advised of his appointment as a delegate to the Republican state convention April 22.

Mays, who lives in Hayward and has been active in city government for a number of years, states that the convention will be devoted to planning the campaign to elect Republicans to state and national offices.

BOAT, MOTOR STOLEN FROM NEWARK CABIN

A sea-going burglar is being sought this week by sheriff's deputies.

Louis F. Perry, 786 Magnolia Street, Newark, reported last Thursday that his 12-foot boat, outboard motor and a pair of oars had been taken from his three-room cabin located on the bay shore near Newark. Value of the property was set at \$209 by Perry.

The following day the boat was found in a slough near Newark but the motor is still missing.

PROPERTY OWNERS SEEK ANNEXATION TO WATER DISTRICT

Property owners of Canyon Heights and along the old Niles Canyon Road near Niles will request that their land be annexed to the Alameda County Water District when the district board meets in Centerville on March 21.

The area of land which is involved includes 143 acres and approximately 137 homes. Signatures of property owners of 77 1/2 acres of the land have been obtained on the petition that will be presented to the board members next week.

A spokesman for the group said yesterday that Canyon Heights is being furnished water by the district but is not a part of the district.

He added that property owners along the Old Niles Canyon Road have complained that they have had an inadequate supply of water for the past 15 years, both from a standpoint of domestic use and fire protection.

A booster pump was installed last year in an attempt to increase the flow to that section of homes but residents state that the lines are too small for the number of homes served.

Also included in the proposed annexation territory is approximately half of the new Prouty Tract, which is being opened as homesites.

REGISTRATION FOR VOTERS UNDERWAY

Registration of voters opened throughout the township this week with new residents, and those who have moved into new precincts, warned that they have less than six weeks to register to be eligible to vote at the June 6 primary.

Registrars who have been selected to supervise the registrations are: Mrs. John Brahmst and Vernon Ellsworth, Niles; William Marshall, Decoto; Mamie Roderick, Alvarado; R. J. Wright, Irvington; Leontine Costa, Centerville; James O'Connor, Newark; Lois Bottenberg, Mission San Jose, and Joseph Brown, Warm Springs.

To be eligible to vote each registrant must have been a resident of the state of California for one year, Alameda County for six months, and the precinct for 90 days.

A special warning was given to those persons who have moved into a different precinct since the last election. Each voter must be registered in the precinct in which he now resides.

IRVINGTON SCOUTS PRAISED FOR WORK

A vote of thanks was passed Tuesday by the Irvington Chamber of Commerce to Gus Robinson, Scout commissioner, and his troop of Boy Scouts who are doing such a splendid job of improving the community park.

The Scouts took over the project last week after committees from the Chamber had been unable to secure enough assistance to make any noticeable gain in improving the plot of ground.

Members of the Chamber have donated material to be used, and a collection taken Monday among the members netted more than \$20 to be placed in the Scout fund. The group also voted a \$10 contribution to the current Red Cross campaign.

SUPERVISORS HERE TO INSPECT ROADS

Alameda County Supervisors Harry Bartell, Clifford Wixson and Chester Stanley, accompanied by County Surveyor Wallace Boggs, were in Irvington today inspecting roads in the community.

The County Planning Commission recently recommended that the county widen and surface Roberts Avenue to Fourth Street and take over that newly opened street which runs through the Hirsch Tract.

The group was taken on the inspection tour by R. J. Wright, Irvington, chairman of the Planning Commission.

SANITARY DISTRICT HAS WEED PROBLEM

The Irvington Sanitary District is being plagued by weeds and grass.

Their problems, unlike that of most property owners, cannot be solved by the purchase of a lawnmower.

The weeds and grass which have been causing them so much trouble have already been cut.

It seems that some "tidy" property owner in the Mission San Jose or Irvington area served by the sanitary district, does not want the unsightly weed and grass clippings cluttering up his yard.

The board members believe that this "tidy" person has been disposing of the cuttings by dumping them down a manhole in the sewer system—at least the weeds have been appearing at the treatment and disposal plant, where they entwine around the mechanism, causing great difficulty.

Fearful that the cuttings may clog the lines, William White, operator of the plant, has been flushing all the system this week.

In the meantime, board members have threatened legal action against the person who has gone to so much trouble to make so much trouble.

COMMUNITY CONCERT MEMBERSHIP DRIVE OPENS NEXT WEEK

The annual membership drive of the Washington Township Community Concert Association will be opened Monday, March 20, and continue throughout the entire week.

The campaign will get underway with a dinner for the officers and campaign workers at the Washington Township Country Club at 6:30 p.m. Monday. Mrs. Jack MacGregor, Centerville, has been named chairman of the "kick-off" dinner.

Officers of the local concert association are: Dwight Thornburg, president; Mrs. Edna Tyson, secretary; Mrs. Bernard Brownstein, treasurer, and J. A. McDonald, general chairman.

During the week of the campaign Mrs. Tyson will maintain headquarters at Miller's Shoe Store in Centerville. Anyone wishing detailed information regarding the Concert Association should contact one of the local chairmen or call the headquarters office.

The campaign workers who will head the drive in their communities are: Mrs. Roland Bendel, Mrs. Clarence Crane and Mrs. E. D. Bristow, Niles; Mrs. LeRoy Brown and Mrs. Arthur Belshaw, Centerville; Mrs. Carmelita Freitas and Mrs. A. E. Alameda, Irvington; Miss Nancy McKeown, Alvarado; Mrs. Bernice Joseph, Decoto; Mrs. Harold Millard, Mission San Jose; and Mrs. Franklin Brown, Newark.

Through the sale of the memberships the local association is able to bring renowned concert artists to the stage of the Washington Union High School for either three or four performances each season. The cards also entitle the members to attend any of the community concert series in nearby cities.

ANNIVERSARY DINNER FOR LEGION, AUXILIARY

The members of the Washington Post, American Legion, will be feted at a dinner to be given by the Ladies Auxiliary 195 on Wednesday evening, March 22.

The dinner, marking the anniversary of the founding of the American Legion, will be served at 7 p.m. at the Memorial Building in Niles under the chairmanship of Mrs. Florence Graber, president.

NEW STORE OPENS IN NILE SATURDAY

Manuel E. Duarte announced this week that his new Tip-Top Quality Bakery would open at 629 First Street, Niles, on Saturday.

Mrs. Ernestine Drake will be the manager of the new business and will feature bakery goods, ice cream, candy and raviolis.

The new business is located in the building which was formerly occupied by Jay's Cake Shop.

TELEPHONE SERVICE HERE PROTESTED BY CENTERVILLE C. OF C.

A protest of the present telephone service provided this area by the Pacific Telephone and Telegraph Company was voiced Tuesday by the members of the Centerville Chamber of Commerce at their luncheon meeting.

Biggest protest voiced was the failure on the part of the company to furnish an adequate system to afford telephone service to new residents. It was pointed out that the present facilities at Centerville are crowded to peak capacity and no new subscribers can be added to the system.

Ralph Goodwin and Romeo Brunelli were named to a committee to make a survey of the township's telephone facilities. When that survey is completed the telephone company will be invited to send a representative here to hear the protests. President Edgar Van Scoy said that officers of other Chambers of the township will be invited to attend the luncheon meeting at that time.

Centerville is the second community of the township to voice a protest of the telephone service in the past two weeks. The Irvington Chamber asked that a representative of the company be sent here early this month, but as yet has received no reply to the invitation.

FARM SUBSIDIES DISCUSSED AT EVENING FORUM

Price support of farm products, in one form or another, will continue as a matter of government policy in this country, according to George Alcorn, agriculture economist of the University of California, who spoke Monday evening at a forum at the Washington Evening High school.

In a comprehensive discussion of the whole federal policy of farm subsidies, the speaker traced the beginnings of price support which dates back to World War I. In 1929 the government attempted to stabilize wheat and cotton by outright purchases, a venture which resulted in a 500-million-dollar loss.

Price support necessitates control of production, he said, a fact which meets with disapproval of most farmers. Support can be given only to a limited number of products and is of no aid to the small farmer.

Alcorn explained that, with agricultural income dropping at the rate of two billion dollars per year, the federal government is committed to the policy of price support.

At present, this support operates on the basis of "parity," that is, the purchasing power of farm products. Non-recourse loans are made to farmers, who may take advantage of a price raise but who suffer no loss in the event of a drop in price.

The "Brannan Plan," upon which Alcorn commented in disfavor, would abolish parity and would attempt to support prices at an arbitrary estimated income.

The speaker emphasized that price support is not simply a matter of economics but is also of a highly political nature. Products which receive support are those which also have political significance in holding the farm vote.

In our own agriculture, for example, consisting mostly of fruit and vegetables, there is no price support program.

LOCAL SCOUTS TO ATTEND JAMBOREE

Four Washington Township Boy Scouts have registered for the National Jamboree of the Boy Scouts of America to be held this summer at Valley Forge, Pennsylvania.

Local Scouts registered to attend the Jamboree are: Larry Lamoreux, Niles; Logan Norris, Centerville; Bryce Phillips, Irvington, and LeRoy Brown, Newark.

The names of the Scouts selected were announced this week by the Jamboree committee.

PETS POISONED IN CANYON HEIGHTS; SEARCH LAUNCHED

A strychnine poisoner, blamed for the death of five dogs and a cat in the Canyon Heights district at Niles, is the object of a search this week by deputy sheriffs and residents of the area.

Residents of the district have raised \$250 which has been offered as a reward for information leading to the arrest and conviction of the poisoner.

Bud Lampley, 223 Canyon Heights Drive, was one of the three residents of the district who lost his pet due to poisoning last week-end. He took the body of the little six-month-old fox terrier to a Hayward veterinarian where it was definitely established that the pet had been destroyed by strychnine.

"We are not only angry over the loss of our pets but we are fearful for the lives of the children of the neighborhood who might pick up some of the poisoned bait," Lampley said yesterday.

A check is being made of the drug stores of the area to learn who may have purchased the poison recently.

POLICE SEEK MAN ON MORALS CHARGE

A man accused of indecent exposure in the presence of a woman in an Irvington store shortly before noon yesterday is the object of a search here.

The man was described as 30 to 35 years of age, 5 feet 10 inches in height, weight about 200 pounds, light brown hair and very light complexion. He drove away in a light green Chrysler sedan.

The woman wrote down the number of the license plate, 9S193, and a check by police revealed that the car was listed to an owner in Los Angeles. Sheriff's deputies expressed belief, however, that the car has been purchased by someone in this area.

According to the description, he is believed to be the same man who had accosted women in Hayward earlier this week.

The deputies expressed certainty that the man was not the one reported last week attempting to lure elementary school students into his machine with candy. According to those reports the vehicle involved was a red pickup truck.

A special election, calling for the issuance of \$260,000 in bonds by the Union Sanitary District, will be held in the three communities served by the district on Tuesday, April 11.

The election has been called by the members of the Sanitary Board to raise money for the construction and acquisition of a sewage disposal plant, treatment works, land easements and rights of way, outfall sewers, roadways, power lines, buildings, equipment and to alter and enlarge the existing pump house.

The request from the sanitary district for the \$260,000 in bonds is one of the largest bond elections ever to be held in Washington Township and parallels the \$250,000 in bonds voted in 1930 for the Alameda County Water District, enabling it to purchase the Alvarado water plant and provide additional water systems throughout the district.

MUST BUILD PLANT

George Coit, president of the Union Sanitary District, said this week the district has no alternative but to call the bond election.

"Two years ago all cities and sanitary districts were served notice by the State Department of Health that raw sewage could no longer be emptied into San Francisco Bay," he said. "The deadline for halting that operation has passed, but the state has not taken action where it is evident that progress is being made toward the erection of sewage treatment and disposal plants."

Coit went on to say that should the voters of the district fail to favor the issuing of bonds, additional elections must be called until the proposal is approved.

The proposed plant would serve Niles, Centerville and Newark and the adjoining areas recently annexed to the district.

The bonds proposed to be issued and sold would bear interest at a rate not to exceed five per cent per year with interest payable semi-annually. The time which the whole of the bonds would run would not exceed forty years.

PRECINCTS LISTED

Three voting precincts have been established for the coming election and the polls will be kept open from 7 a.m. until 7 p.m. continuously.

Precinct No. 1 shall consist of all that portion of Union Sanitary District lying within the boundaries of General Election Precincts of Alameda County designated as Niles 1, 2, 3, 4, 5, 6 and 7. Polling place will be the fire house. Mary R. Geib will serve as inspector and Mary L. Solon and Katherine McDonald have been named as judges.

Precinct No. 2 is comprised of all the portions of the sanitary district within the boundaries of General Election Precincts designated as Centerville 1, 2, 3, 4 and 5. Polling place will be the Justice Court at Centerville. Election officials will be Olive M. Alves, inspector, and Helen C. Rogers and Maria M. Brazil, judges.

Precinct No. 3 includes all that portion of the sanitary district lying within the boundaries of General Election Precincts designated as Newark 1, 2, 3 and 4. Polling place will be at 1232 Thornton Avenue and the election officials will be Opal Blanche, inspector, and Rose E. Santos and Adeline Dutra, judges.

NILES IN 'LIFE'

For the second time in a few weeks, the town of Niles has again come into national prominence (the Ghost Girl story, a few weeks ago, went out over the Associated Press wires), with the picture this week in the March 17 issue of Life Magazine of James Roosevelt speaking at the Niles flagpole on his recent political tour.

One of the spectators pictured in a close-up is Mrs. Carl Crosswhite of Canyon Heights.

Residents here regret the fact that the captions do not mention Niles, but those who see the photo will recognize the familiar flag-pole.

ZONING QUESTION REVIVED IN NILES

The subject of zoning Niles was re-opened Tuesday at the regular meeting of the Niles Chamber of Commerce, with John Thomas, secretary of the Alameda County Planning Commission, present to explain zoning objectives and procedures.

He stated that it is the policy in Alameda County to zone a community only at the request of local residents. The benefits of zoning are the protection of homes from location of business or industry in residential areas and the designation of areas for various land uses.

Only objector to zoning present at Tuesday's meeting was M. A. McDermott, who spearheaded opposition when zoning efforts were made two years ago.

The matter of zoning is being studied again by the Chamber in view of the present and projected growth of the Niles vicinity. The communities of Newark and Decoto have been zoned and Irvington is in process of zoning.

Miss Silva will compete in a zone contest to be held at the International Kitchen on Wednesday evening, March 22. Other contestants will represent the clubs of Livermore, Pleasanton, Hayward, and Castro Valley. The contestants will each speak on the topic, "Education in American Ideals—Basis for International Understanding."

It was announced at Wednesday evening's meeting of the club that the zone contest meeting will be considered a regular meeting night for the local group and will be Ladies Night. Dinner will be served at 7 p.m.

Jobs are born

Money spreads and people prosper

Three things happen when earnings go to work

There has been a growing need in the West for wax... the kind used on milk cartons, bread wrappers and containers of other foods and drugs you buy.

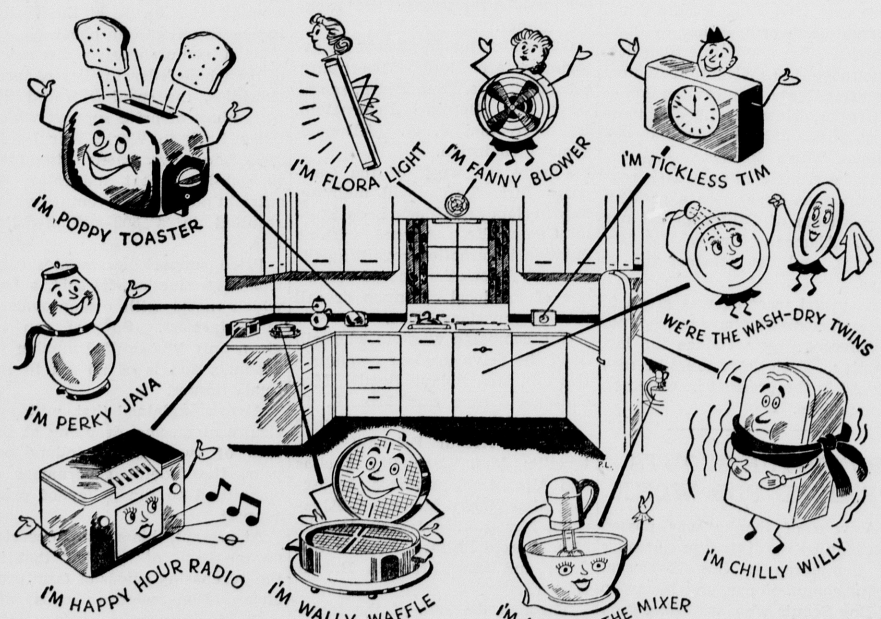

To fill this need, Standard of California recently completed a plant which refines excellent wax from petroleum. The plant cost \$3,500,000; the money came out of earnings—or profits—and here's what it meant to you:

Better protected and packaged products, of course. More jobs for construction workers in building the plant; steady employment for the men who work in it today. More sales for small businesses because the money paid to the workers involved has naturally spread to the grocer, the department store, the doctor and every other business and profession.

This is one example—a 3½ million dollar example—of how earnings are put to work and keep our economy running. There are many others, for Standard of California has spent more than \$500,000,000 just since the war for plants and facilities to serve you better.

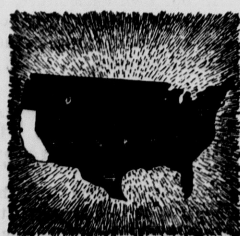

"We work for pennies a day!"

Wired help in your kitchen

Young homemakers of today can get a complete dinner on the table, from salad to dessert, in about half the time it took Mother twenty years ago. Of course, Mother did her work by hand, while Daughter has a staff of electric servants helping her. Low cost electricity, for example, runs a mixer for three hours for

less than a penny. And the electric dishwasher washes and dries a daily quota of dishes for just a fraction more. Do you work in a brightly lighted kitchen, with the air swept clean of cooking fumes and completely staffed with wired help? Thousands of happy housewives save time and energy in an electric kitchen. Why not you?

One of the bright spots for electric appliance sales in the Nation is your part of California, where practically all of the homes and farms are wired for electricity. And serving you here are nearly 2,300 friendly and helpful electric appliance dealers.

Low electric rates mean good business for the electric dealers in your community. Last year, retail dealers sold 93,000 refrigerators, 73,000 washers, 30,000 vacuum cleaners, 11,000 home freezers, and 10,000 ironers in Northern and Central California.

For the record

LIVING COSTS UP
It takes many more dollars to buy what your family needs today. Living costs in San Francisco, for example, are now more than 51% higher than in 1923 and 87% higher than in 1933.

ELECTRIC COSTS DOWN
Despite the rising cost of living, the price of electricity has gone down and down. NINE major rate reductions made by this company since 1923—the latest in 1946—have cut the cost of household electricity more than 50%.

"MILLIONS OF CAKES WITH NO MISTAKES"

Best way to spruce up a telephone is with a soft, dry cloth...never with water, or any other liquid.

HOW TO TREAT YOUR TELEPHONE

Suggestions to help protect your service

1. A twisted cord can lead to trouble. Although the wires are especially designed for flexibility, too many twists and kinks may eventually break them and interfere with service until a repairman can call. Good idea to get the curls out by letting the receiver dangle and unwind by itself...then keep them out by remembering, each time you call, not to put turns in the cord as you handle the receiver.

2. It's built to take it...but your telephone can develop ailments if it's dropped. So make sure the stand it sits on is solid and is in a spot where it won't be accidentally bumped. Other ways to help protect service: Avoid "gadget" attachments for your telephone...keep cords clear of doorways where they may be pinched...and always keep water away from wires and fittings.

Your telephone is one of
today's best bargains

DINAH SHORE SAYS:

"You can't make a bad cup of M-J-B"

Good news gets around. 43% of all M.J.B. users first tried it because friends and neighbors recommended it.

The deep rich flavor and tempting aroma that you get in M.J.B. comes from choice coffee beans that have been specially selected and carefully matched to give perfect flavor balance. That's why you can brew it mild, strong, in-between, use drip or regular grind, and make good coffee every time. No guesswork with M.J.B. It's always just right.

Good cooks know that roasting is an important job and must be done carefully. That's why M.J.B. uses the "individual bean roasting process" to bring out the extra flavor and aroma in its rich, rare coffee beans. Also, highest vacuum guarantees that every bit of this wonderful goodness will reach your cup.

So good we guarantee you'll like it.
You can't make a bad cup of M.J.B.

WASHINGTON OPENS LEAGUE SEASON AT LIVE OAK TODAY

The Washington High varsity baseball club, still a question mark after its first four non-conference games of the season, will embark on its 1950 Santa Clara Valley Athletic League pennant race today with a game at Live Oak.

Coach Irving Hird's lads, league champions of last season, have fluctuated from hot to cold in their early season games, looking like a polished end-of-the-season club in some innings and dropping back to a sandlot type of uncoordinated aspirants at other times.

Last Friday on the home diamond the local lads had a field day, wearing grooves around the baselines to trounce the Half Moon Bay nine 16 to 2. The Huskies banged out 13 hits while Elizarrey held the Bay club to a scattered four. Garcia rapped out a triple and Machado, Bettencourt, Berrios and Pagan each got doubles, to lead the onslaught.

On Tuesday afternoon the Huskies journeyed to San Jose for a return game with Lincoln and were dumped 5 to 3, the identical score by which they were downed by the same team the previous week.

Although they got eight hits, while Rego held the Lincolns to four, the Washington lads were unable to bunch their hits enough to score the base-runners. Machado and Cicalros each smashed out triples, but Berrios, with three for three, had the best day at the plate.
